The current fund performance may be higher or lower than that cited. The current seven-day yield does not include realized gains and losses on the sale of securities. The yields shown above may reflect fee waivers by service providers that subsidize and reduce the total operating expenses of the Funds. Fund yields would be lower if there were no such waivers.

1-3 Year High Quality Bond Fund	**0.09%**

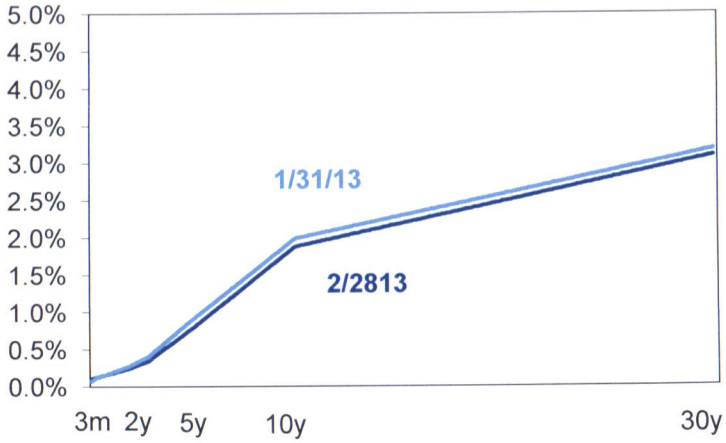
Recent Treasury Yield Curves



Economic data were mostly positive in February as new home sales reached their highest level since July 2008 and manufacturing surveys were stronger than expected. Despite this positive momentum, yields declined modestly as the White House and Congress were unable to reach a deal to advert the automatic spending cuts set to take effect March 1. Longer maturity yields declined more than shorter maturities with the 2-year Treasury falling 3 basis points and the 10-year Treasury declining 11 basis points, finishing the month at 0.23% and 1.88% respectively. Sector performance was muted with agencies and asset-backed securities outperforming by 3 and 2 basis points and mortgage-backeds and corporates lagging by 8 and 1 basis points respectively.

The FMIvT High Quality 0-2 Year and 1-3 Year Funds match the performance of their benchmarks. The portfolios' shorter than benchmark duration detracted from returns while the yield advantage and security selection added to performance. The FMIvT High Quality Intermediate Bond Fund trailed the HQ Intermediate Aggregate by 7 basis points as the portfolio's shorter than benchmark duration detracted from returns.
